# GENERAL PRESENTATION OF THE PROGRAMME

**Creation : 2009**

**The purpose of this programme** is to develop excellence scientific and technological exchanges between the French and Chinese laboratories dealing with joint thesis supervision

**Total budget 2015-2025 (France + China) : around 500 000 € / year**
>> including budget from the French part : 250 000 € / year
>> including budget from the Chinese part : 250 000 € / year

Average budget per project (France + China) : 43 000 € / year

**Number of new projects per year (2015-2025) : around 12**

**From 2010-2025:**
**748 applications submitted**
**226 projects funded**
**Number of new projects per year : around 18**

# DATA SOURCES

## Campus France (2010-2025)

- Information about the PHC CAI YUANPEI applications
- List of mobilities (from France to China)
- Survey 1 : 2010-2015 ; Survey 2 : 2016-2024

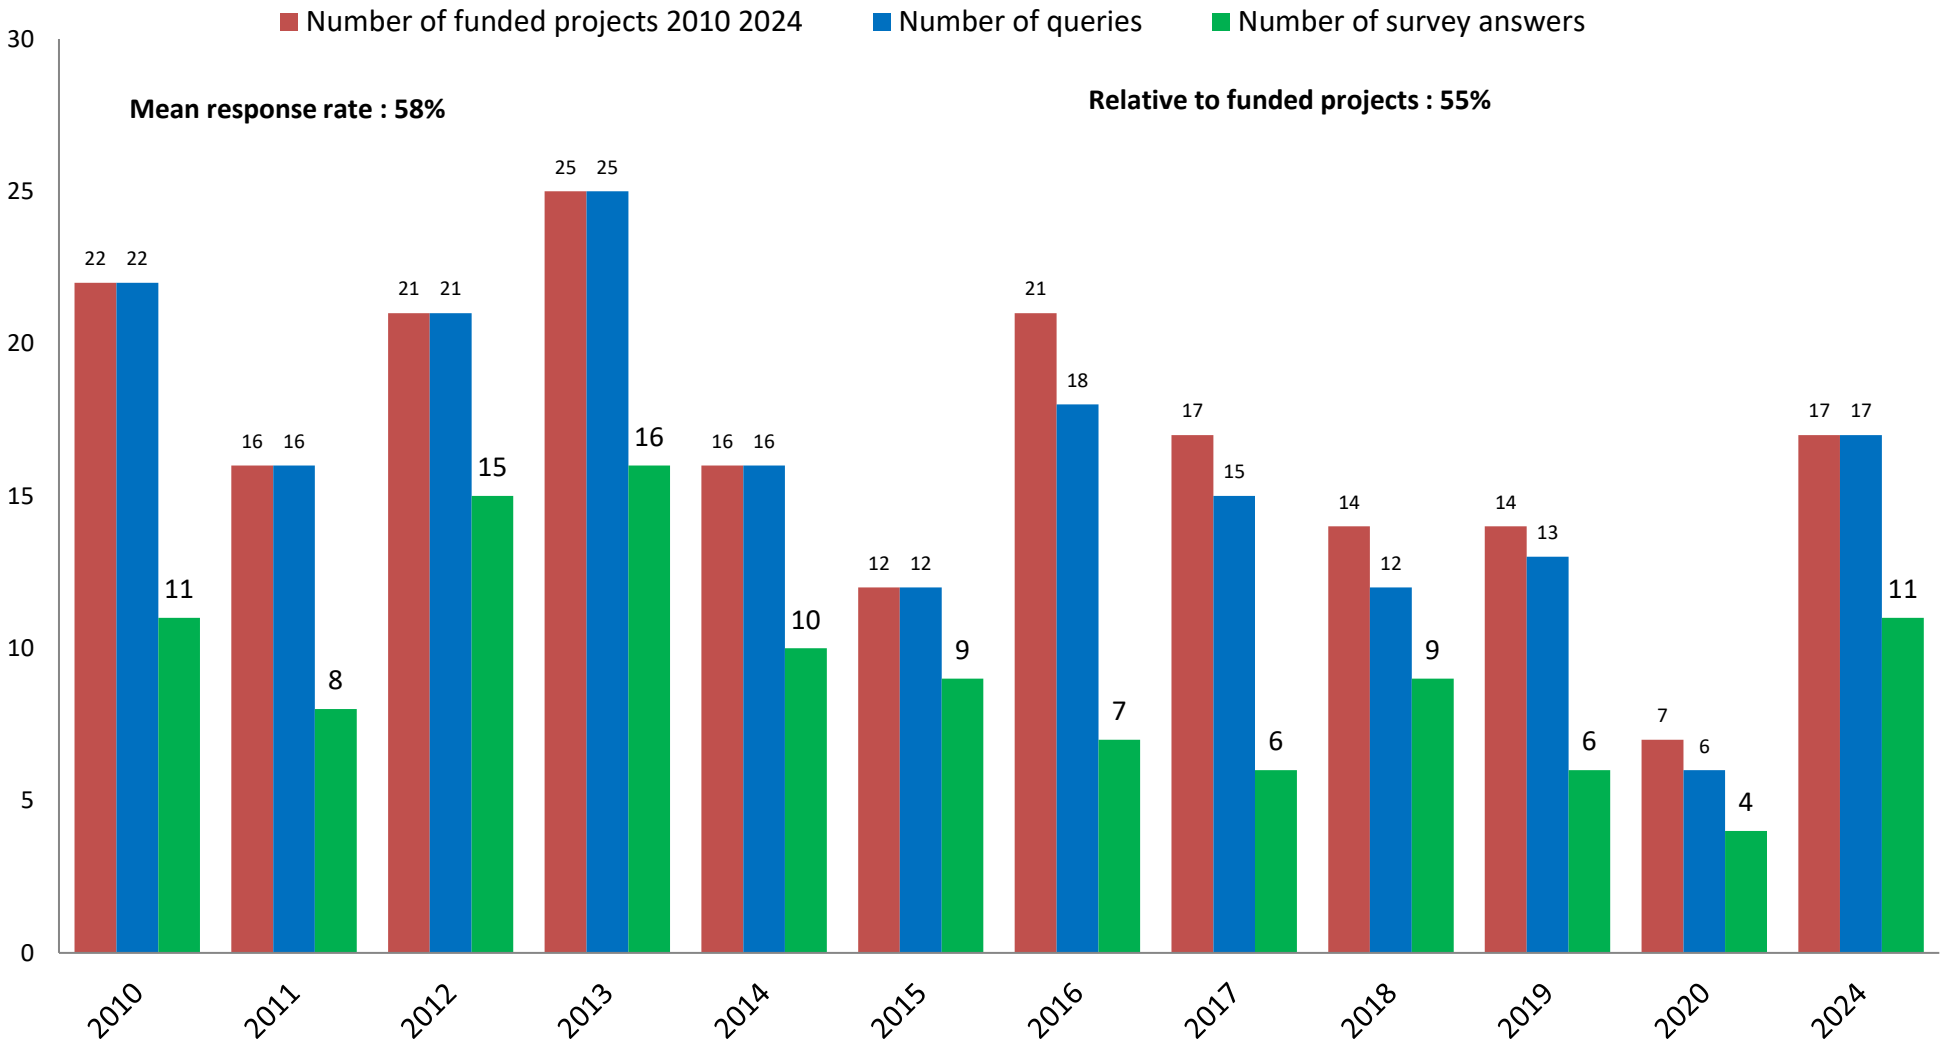

## Survey (2010-2025)

- Target : French Principal Investigators of selected projects between 2010 and 2025
- Survey 1 (2010-2015) duration : from March to June 2016
  **66%** response ratio (69 respondents for 104 queries)
- Survey 2 (2016-2024) duration : from May to June 2026
  **54%** response ratio (44 respondents for 82 queries)

# PRELIMINARY CONCLUSIONS

***Preliminary conclusions suggest that the funding scheme has efficiently contributed to create (or to maintain) fruitful and long-term cooperation.***

**Recent increase in the number of applications**
**Implication of women laureates (24%) close to the general mean (26%)**
**77% of funded projects with the participation of at least one french or chinese young researcher**
**69% of scientific coproductions involve at least one french or chinese young researcher**
**Good average annual scientific coproductions per project (1,54)**
**Correct rate of average annual publications for french and chinese young researchers involved in the scientific coproductions (0,99)**
**88% of ongoing cooperation after the CAI YUANPEI project of which 41% with fundings**

---

**Only 25% of new cooperations with China**
**75% of the cooperations with the same previous chinese partner (mean of all programs : 56%)**
**Implication of young researchers laureates (12%) below the general mean (23%)**
**28% of the projects with no scientific coproduction**
**Low implication of french (13% of the projects) or chinese (12% of the projects) postdoctoral researchers in the projects**
**Rather low implication of french young researchers in the mobilities (29%)**

# PRELIMINARY RECOMMANDATIONS

- **Encourage new cooperations**
- **Encourage young researchers applications**
- **Enhance scientific coproductions (from the surveys : 28% of projects with no scientific coproduction)**
- **Increase the participation of french postdoctoral young researchers to the projects**
- **Promote outgoing mobilities of french young researchers**
